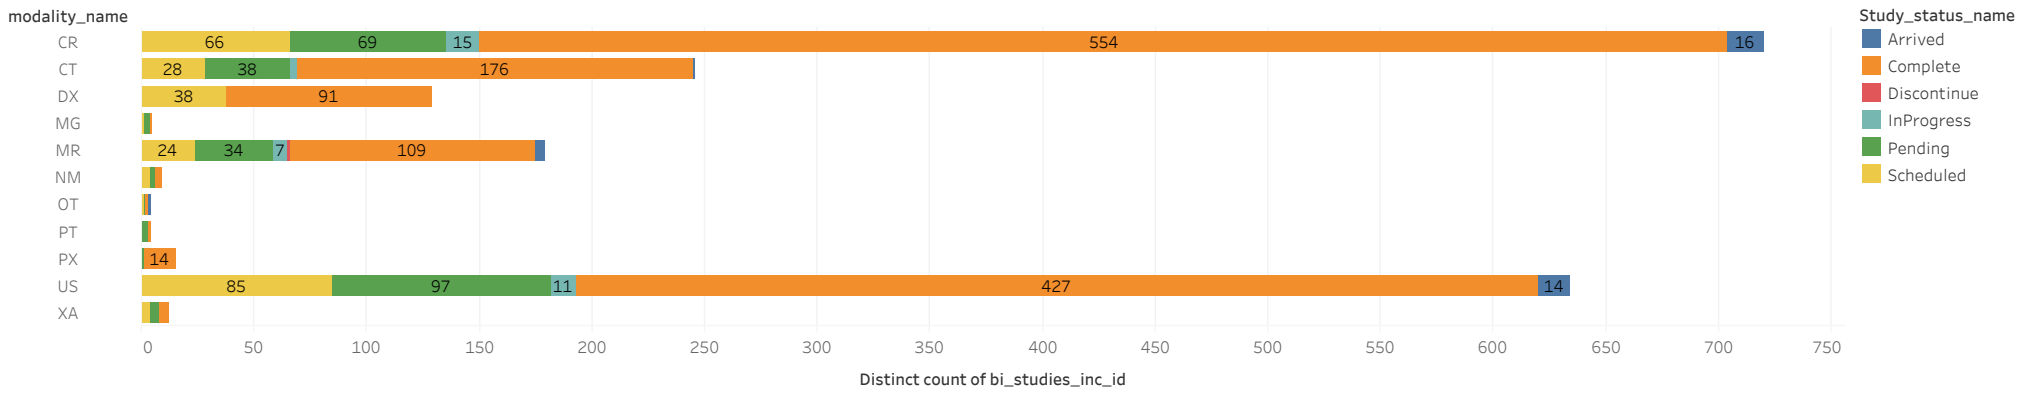
No studies based on modality & Ris status Per branch



Distinct count of bi_studies_inc_id for each modality_name. Color shows details about Study_status_name. The marks are labeled by distinct count of bi_studies_inc_id. The data is filtered on study_date and BI_Branch. The study_date filter includes today. The filter associated with this field ranges from 3/25/2026 to 3/25/2026. The BI_Branch filter keeps 10 of 10 members. The view is filtered on modality_name, which keeps 16 of 16 members.
